

Exciting New Training Options!

Over the past several months, we have investigated the effectiveness of our training programs. We have found that the most effective EHR training is through Private Internet Webinars. Since there is a lot to learn in any EHR program, the best training is accomplished by covering the materials over several weeks instead of all at once. This avoids “knowledge overload” which often occurs with more concentrated options. We have also added follow up training sessions as well as a set of training DVDs to provide more follow on training for our customers. Our new training line up will be available beginning in September 2011.

Below is a complete list of the new training options. Call your local VAR or your Spring Medical Regional Sales Director for pricing.

NEW SPRINGCHARTS CUSTOMERS

SpringCharts Complete

A total training package. Covers everything necessary for a practice that is just starting out on SpringCharts. Number of hours of training increases by practice size. Private Internet Webinar.

SpringCharts Chiropractic

A total training package geared toward chiropractic practices that are just starting out on SpringCharts. Chiropractic offices need less training on SpringCharts than other specialties. Private Internet Webinar.

SpringCharts 101

Includes one set of training DVDs and 4 hours of SpringCharts customized training. An inexpensive way to get assistance customizing SpringCharts to your practice and also learn all of the features of SpringCharts on your schedule. An example of our motto: “Your Practice, Your Way™”

ESTABLISHED SPRINGCHARTS CUSTOMERS

SC Refresher (2 hour minimum, unlimited trainees)

Covers specific features in SpringCharts as determined by the customer in consultation with our training staff. Ideal for practices that have recently upgraded or desire a refresher. *Requires consultation with our training staff.* Private Internet Webinar.

SC Core Clerical (4 hours, up to 3 trainees, ideal for new staff)

Covers items such as scheduling, tracking, referral letters, patient check-in, etc. Minimal templates and pop-up text will be covered. Private Internet Webinar.

SC Core Clinician (6 hours, up to 3 trainees, ideal for new staff)

Covers items such as entering vitals, chief complaints, exam room procedures, basic office visit notes, etc. Templates and pop-up text will be covered thoroughly. Private Internet Webinar.

SC Core Physician/Provider (8 hours, up to 3 trainees, for new staff)

Covers extensive office visit notation, administration, etc. Templates and pop-up text will be covered extensively. Private Internet Webinar.

SC Document Customization (2 hour minimum)

Any paper documents that the practice currently uses that they need in SpringCharts can be created by MNTI. Two hours covers about 2 to 4 documents, depending on complexity.

SpringCharts Training DVDs

Includes a set of training DVDs that covers all features of SpringCharts.
